## How to add and assign Add-Ons

- Navigate to top pane and click select Settings-> Menu Management -> Add-Ons Management.

- Choose name of menu from drop down list and click "add new add-on".
  Define all add-ons that restaurant have.

- Add the name of add-on in English and Arabic.
- Enter the price and cost of Add-on.
- Mark check in "Add-on is Active"

- Once you defined all add-ons, assign each item their respective add-ons from add-on list.

- Choose item from "Choose item" drop down list.
- Click on the add on that you want to assign.
- Click on right arrow to assign add on to the menu item.
- Click left arrow to remove the assigned add-on.

- For each assigned Add-on select "change settings"
  - Click show add-on on selling screen.
  - If add-ons are mandatory, then mark the option.
  - If there are multiple add-ons mark the option "waiter can select multiple add-ons"
